# Coil-over Suspension 2016-2024 Chevrolet Camaro

Lower your 2016-2024 Chevrolet Camaro and greatly improve both handling and ride quality! Ridetech has developed a coil-over system and an adjustable rear sway bar for this application. Our single-adjustable HQ coil-overs allow 24 positions of rebound adjustment to fine-tune shock settings to your driving style and vehicle specs. All components are developed on track and on the street. Made in the USA in Jasper, Indiana.

## FEATURES

- Fox Factory shock valving along with monotube design provide excellent ride quality and handling
- Improved range of camber & caster for performance driving alignments:
  - Caster Range: +1.5 degrees
  - Camber Range: 3 degrees of additional camber adjustment
- Impact forged aluminum shock body provides an excellent strength-to-weight ratio
- Allows 1" - 1.25" drop from stock, improving vehicle center of gravity and reducing wheel-to-tire gap
- 24-position rebound adjustable HQ Series coilovers allow ride quality and suspension responsiveness adjustability
- Made in the USA | Premium design, premium components, industry leading performance
- Designed to be used in conjunction with our 2016-2024 adjustable rear sway bar
- Rubber isolated spherical bearing minimizes NVH noises commonly associated with coilovers
- Custom spring rates allow fine tuning for intended vehicle use: street performance, drag, road course, autocross
- Application specific mounting for a seamless installation
- Ridetech's standard 1,000,001 Mile Warranty
- Triple Adjustable coilover options are available for dedicated motorsport applications!
